

For gravure rolls and metering rolls we exclusively our concept of „**REPLACEMENT ROLLS**“!

The process:

- ❶ As soon as the installed rolls are worn off, they are replaced by spare rolls, which are available in our customer's stock.
- ❷ The worn rolls are sent to VITS.
- ❸ After refurbishing the rolls are stored at VITS and our partners and wait for the next requirement.
- ❹ After a call the rolls are shipped immediately.
- ❺ The delivery of the rolls stored at Vits can be effected shortly.
- ❻ The costs for refurbishment will only be invoiced when the rolls are delivered.
- ❼ Then the exchanged rolls are sent to VITS again and the concept „**REPLACEMENT ROLLS**“ starts again with step ❶

Your advantages:

- ✓ Immediate availability of required rolls
- ✓ Flexibility by express delivery
- ✓ Redistribution of costs at the time of demand
- ✓ High, equivalent coating quality after roll exchange
- ✓ Optimum support and professional processing of your orders
