

Terms of Use

Content of the website

Vits Technology GmbH does not take over any warranty for the currentness, correctness, completeness and/or quality of the provided information. Liability claims against Vits Technology GmbH, which refer to damages of material or non-material kind, are basically excluded, provided that no verifiable wilful or gross negligent default exists.

All submissions are without obligation and non-binding. Vits Technology GmbH explicitly reserves the right to have without notice parts or the complete submission changed, complemented, deleted or to stop the publication temporarily or definitely.

Cross references and links

In case of direct or indirect references to external websites (links), which are beyond the responsibility of Vits Technology GmbH, a liability can only come into force if Vits Technology GmbH has knowledge of the contents of such websites and if it would be technically possible and reasonable to prevent the use in case of illegal contents. Vits Technology GmbH hereby declares explicitly that at the time of linkage no illegal contents were evident on the linked pages. On the present and future presentation, the contents and/or the authorship of the linked/knotted websites Vits Technology GmbH has no influence whatsoever. For that reason Vits Technology GmbH distances itself explicitly from all contents of all linked or knotted websites, which have been changed after linkage. This declaration refers to all links and references placed within the web presence of Vits Technology GmbH as well as to entries of outsiders in the networking areas.

For illegal, faulty and/or incomplete contents and especially for damage, which arises from the use or non-use of such information, only the provider of the websites is liable, to which had been linked, not the party only referring to this publication via links.

Copy right and trademark law

Vits Technology GmbH strives to respect in all publications the copy rights of the used graphics, audio files, video sequences and texts, to use its own graphics, audio files, video sequences and texts or to resort to public domain graphics, audio files, video sequences and texts.

All brand and trademarks named within the web presence and possibly protected by third parties are explicitly subject to the regulations of the applicable trademark law and the copy rights of the registered owner. Pure mentioning should not lead to the conclusion that the brand name is not protected by rights of third parties.

The copyright for objects published and designed by Vits Technology GmbH will remain at Vits Technology GmbH. Any duplication or use of such graphics, audio files, video sequences and texts in other electronic or printed publications is not permitted without the expressive permission of Vits Technology GmbH.

Legal validity of this disclaimer

This disclaimer is to be regarded as part of the internet publication, which you were referred from. If sections or individual terms of this statement are not legal or correct, the content or validity of the other parts remain uninfluenced by this fact.
